Details

DEMO-101 – Export the activity list as CSV

Story · Done · Fix versions: Demo 2.4.0 · https://jira.example.com/browse/DEMO-101

Users can export the filtered activity list. The export respects the current filter and column order.

- Up to 10,000 rows
- UTF-8 with header row

DEMO-102 – Dark mode for the dashboard

Story · Done · Fix versions: Demo 2.4.0 · https://jira.example.com/browse/DEMO-102

The dashboard follows the operating system setting. *No manual toggle in this release.*

DEMO-103 – Bulk-assign work items from the list view

Story · Done · Fix versions: Demo 2.4.0 · https://jira.example.com/browse/DEMO-103

DEMO-104 – Date picker shows the wrong week number in January

Bug · Done · Fix versions: Demo 2.4.0 · https://jira.example.com/browse/DEMO-104

Fixed the ISO week calculation for dates before the first Thursday of the year.

```
weekOf(2027-01-01) == 53  // was 1
```

DEMO-105 – API returns 500 for empty search terms

Bug · Done · Fix versions: Demo 2.4.0 · https://jira.example.com/browse/DEMO-105

Empty terms now return `400 Bad Request` with a clear message.

DEMO-106 – Notification e-mails repeat the subject line

Bug · Done · Fix versions: Demo 2.4.0 · https://jira.example.com/browse/DEMO-106
